Hiring Manager
Swissport Trinidad and Tobago

Dear Hiring Manager,

I started on the bar at Kafneo Office Center and Lounge and was promoted to supervisor because I took ownership of the details others leave to chance: the roster, the timesheets, the reconciliation. That habit is what I would bring to the Passenger Service Agent role, where a missed document or a miscounted figure can affect someone's journey.

Two parts of your posting match my work directly. You ask for exceptional service in a highly manual, regulated environment. As a supervisor I set the guest experience standards, train staff in operating procedure, and hold them to it, which has taught me to stay courteous while being exact. You also need someone numerate who can be trusted with money. I handle payments and reconciliation at Kafneo, complete accounting tasks and end-of-day reports, and reduced stock and wastage variance by setting up the systems to track it. My Grade I passes in CSEC Mathematics and English meet your academic requirement, and my HND coursework in Engineering Mathematics keeps me comfortable with figures. Alongside my employment I have built two businesses, AhbooJ Desserts and AhbooJ Studio, where I am accountable for every outcome because there is no one else to hand it to.

Swissport's values of Show You Care, Do the Right Things and Win as a Team are the standards I already hold myself and my team to: a guest who feels looked after, a procedure done correctly, and a shift that works because everyone carried their part. A company serving over 300 million passengers a year earns that standard every day, and I would like to help deliver it in Trinidad and Tobago.

I also bring a practical interest in technology. I apply AI tools to improve how everyday work gets done, and I am currently pursuing a Project Management with AI specialty certification. I am looking to start with Swissport and grow with it, adopting the new skills each role requires and earning my way into greater responsibility within the company over time.

I am available for all shifts, including evenings, nights, weekends, and holidays, and would welcome the chance to discuss how I can contribute to your Passenger Services team. My resume is attached, and I can be reached on 1868-748-5180 or at hassanjhaboo@gmail.com.

Yours faithfully,
Hassan Jhaboo
